3. FRONTEND DEMONSTRATION

On the **Checkout Page** – Review & Payments Step:

- There are 5 COD methods created in the previous examples
- **Notes:** If any method is hidden in the list, this means that the Order Total doesn't satisfy the condition of the method.
- **Coming features:** The customers can see all COD methods even if their Order Total doesn't meet the condition. However, they can't choose that COD method and will see a message, e.g.: "Your Order Total must be from \$70 and above to select this COD method". Owing to that, it might help to boost the sale indirectly.
