

TIGREN

SPLIT CART EXTENSION FOR MAGENTO 2

This extension gives your customers the power to choose the items they want to purchase before reaching the checkout page. By allowing them to mark desired items and proceed to checkout swiftly, while keeping others in their cart for later, it enhances the checkout process and delivers a superior shopping experience.

Version: 1.0.7

Installation Guide

Step 1: Download the extension package

Step 2: Unpack the extension's zip file

Step 3: Upload all the extracted files from the extension package to the root folder of your

Magento installation

Step 4: Run the following commands in your Magento directory:

- `php bin/magento module:enable Tigren_Core`
- `php bin/magento module:enable Tigren_Splitcart`
- `php bin/magento setup:upgrade`
- `php bin/magento cache:flush`

User Guide

To configure the extension, simply access your Magento dashboard and follow these steps:

- Go to **Stores > Configuration > TIGREN > Split Cart**.
- Enable the extension by selecting **“Yes”** to empower customers to choose specific items for checkout.

The screenshot shows the Magento Configuration interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Ajax Suite, Events, Customers, Marketing, Content, Banner Manager, Multiple Order Email, Reports, Stores, and System. The main content area is titled 'Configuration' and shows the 'Scope' set to 'Default Config'. A yellow notification banner at the top states 'It's time to change your password.' Below this is a list of configuration sections: GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, YOTPO, DOTDIGITAL, TIGREN (expanded), Split Cart, and Repayment. The 'TIGREN' section is expanded to show the 'General' settings, where the 'Enable Split Cart' option is set to 'Yes'.

Once you have enabled the extension in the Magento backend, it is essential to check its proper functioning by accessing your storefront. To do so, add several products to your cart and navigate to the shopping cart page. Ensure that the option to select specific items before checking out is available and working as expected.
