

TIGREN

TAP PAYMENT GATEWAY EXTENSION FOR MAGENTO 2

The free Tap Payment Gateway extension offers the quickest and simplest way to establish a connection between Magento 2 stores and Tap, a renowned payment gateway in the Middle East.

Version: 1.0.0

Installation Guide

Step 1: Download the extension package

Step 2: Unpack the extension's zip file

Step 3: Upload all the extracted files from the extension package to the root folder of your Magento installation

Step 4: Run the following commands in your Magento directory:

- `php bin/magento module:enableTigren_Core`
- `php bin/magento module:enable Tigren_TapPayment`
- `php bin/magento setup:upgrade`
- `php bin/magento cache:flush`

User Guide

Notes: Before configuring the Tap Payment Gateway extension, please ensure that you have signed up for a business account and obtained the necessary credentials from the Tap website. You can visit their website at <https://www.tap.company/>. The extension will require specific information to establish a connection between your Magento store and the Tap payment gateway.

Extension Configuration

1. Tap Payment Gateway Section

To begin configuring the extension, first, open your Magento dashboard. Then, navigate to **Stores > Configuration > Sales > Payment Methods > Tap Payment Gateway**.

From there, you can proceed with your configuration settings.
